EDUCATION

University of California, Santa Barbara | BS – Environmental Studies (GPA 3.89), June 2026

SUSTAINABILITY EXPERIENCE

Sustainability Co-Op

June 2025 – December 2025

Kohler Co. – Kohler, WI

- Analyzed facility waste, water and greenhouse gas data for senior leadership and external disclosures (EcoVadis, CDP) and benchmarked corporate sustainability strategies against competitors, applying frameworks such as SBTi, GRI, & TCFD, to guide internal policy.
- Co-developed Kohler's first corporate waste policy and reporting playbook, establishing standardized waste stream profiles and definitions, data collection protocols, in accordance with current industry standards such as ISO14001 and Greenhouse Gas Protocol Guidelines.
- Authored a Global Waste Segregation SOP by conducting facility waste walks, mapping waste infrastructure, and assessing high-volume waste streams; facilitated Kaizen workshops with EHS and Continuous Improvement teams to increase landfill diversion across North American operations.
- Designed and executed a global internal water education campaign, authoring 9 communications distributed to 30,000+ associates, resulting in 43 team activations worldwide.
- Conducted a Sustainable Procurement / Responsibility Supply Chain assessment, identifying high-impact suppliers for Scope 3 emission-reduction opportunities across Kohler's highest-impact categories; delivered findings to C-suite executives.

Campus Commissioner of Environmental Sustainability

August 2025 – Present

Associated Students – Santa Barbara, CA

- Represented the 26,000-student body on all environmental and sustainability matters, reporting directly to the Chancellor, Campus Sustainability Officer, Student Body President, and 18 environmental organizations and external stakeholders to align efforts, share resources, and drive collaborative projects.
- Spearheaded key sustainability initiatives including bi-weekly campus farmer's markets, leading monthly "ECOalition" meetings to increase collaboration among environmental groups, and served as the chief visionary and project manager for UCSB's first-ever *Earth Month* - a three-week campus-wide educational campaign featuring 35+ sustainability events across 25+ organizations that engaged over 1200 students
- Identified and addressed gaps in campus sustainability infrastructure, drafted policy proposals and resolutions to improve facilities, reduce waste and promote a greener campus.

LEADERSHIP EXPERIENCE

Executive Director/Founder

September 2023 – Present

UCSB Shoe Recycling – UC Santa Barbara

- Designed and implemented the first North American university shoe-recycling program, allowing students, staff and faculty to easily recycle 2000+ pairs of shoes at the end of their lifecycle, displacing 70,000+ lbs of CO2 & saving 5.6 million+ gallons of water to date.
- Developed sustainable leadership practices through relationships with partner shoe recycling companies, the UCSB Zero Waste Committee, Associated Students Recycling, and UCSB Athletics faculty.
- Led the expansion of the program to the University of Vermont and multiple corporate organizational sites.
